

9V DC - Mains Power Supply Adaptor (Output: 9V DC regulated@1.7A, Input: 100-240V AC)

Equinox Code: **PSU-9V1700mA-UN**

Digikey Code: **483-1034-ND**

The PSU-9V1700mA(UN) is a universal Mains Power Supply Adaptor (Wall adaptor type) suitable for powering any equipment which requires a 9V DC regulated power supply. The power supply comes with interchangeable mains power supply plugs for the USA, Europe, UK and Asia / Australasia making it ideal for use in most countries in the world. The DC output is a 2.5mm centre positive barrel (jack) plug.

Specification:

OUTPUT: Regulated 9V DC @ 1700mA

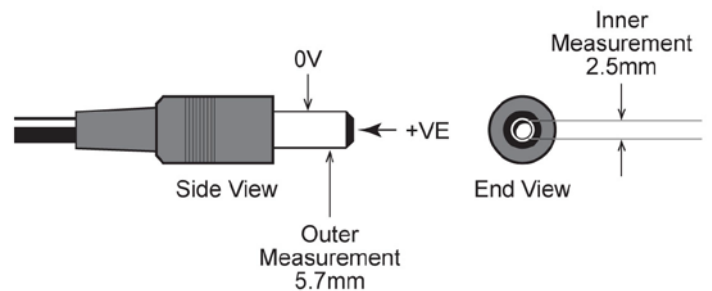

Output Connector: 2.5mm barrel (jack) plug, centre pin positive

INPUT: 100-240VAC, 50-60Hz 600mA

Mains connector: Interchangeable Global AC Plug Set - comes with US, UK, Europe, Asia plugs

Certifications: UL, CE, PSE Certified

Power Supply type: Switchmode

2.5mm Barrel (Jack) Plug

Please note:

- *This power supply is suitable for use with any Equinox programmer requiring a 9V DC power source eg. EPSILON5-MK4, FS2003, FS2009, FS2009USB, PPM3-MK2, PPM4-MK1*
- *This power supply can also be used to power any other equipment which requires a 9V DC power supply e.g. DVD Players, portable speakers etc.*

Interchangeable AC mains plug

This power supply features interchangeable AC mains plugs. The required AC mains plug type for the destination country is simply slotted onto the adaptor

The following plug types are supplied with this adaptor:

- US - 2-pin
- European - 2-pin
- Asia - 2-pin
- UK - 3-pin
